# Knowledge Progression in the National Curriculum 2021-2022

# Maths Curriculum Progression at Bush Hill Park Primary School

	Number and Place Value           Counting							
Key S	tage 1		Key S	tage 2				
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number			count backwards through zero to include negative numbers	interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero	use negative numbers in context, and calculate intervals (ranges) across zero			
count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward	count from 0 in multiples of 4, 8, 50 and 100;	count in multiples of 6, 7, 9, 25 and 1 000	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000				

given a number, identify one more and onless		find 10 or 100 more or less than a given number	find 1 000 more or less than a given number		
		Comparin	g Numbers		
use the language of: equal to, more than, less than (fewer), most, least	compare and order numbers from 0 up to 100; use <, > and = signs	compare and order numbers up to 1 000	order and compare numbers beyond 1 000 compare numbers with the same number of decimal places up to two decimal places (copied from Fractions)	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)
		Identifying, Representing	and Estimating Numbers		
identify and represent numbers using objects and pictorial representations including the number line	identify, represent and estimate numbers using different representations, including the number line	identify, represent and estimate numbers using different representations	identify, represent and estimate numbers using different representations		
	Re	ading and Writing Number	rs (including roman numer	als)	
read and write numbers from 1 to 20 in numerals and words.	read and write numbers to at least 100 in numerals and in words	read and write numbers up to 1 000 in numerals and in words		read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit	read, write, order and compare numbers up to

recognise the place value of each digit in a two-digit number (number (cess))recognise the place value of each digit in a three-digit number (hundreds, tens, ones)recognise the place value of each digit in a three-digit number (hundreds, tens, ones)recognise the place value of each digit in a three-digit number (hundreds, tens, ones)recognise the place value of each digit in a three-digit number (hundreds, tens, ones)recognise the place value of each digit in a three-digit number (hundreds, tens, ones)recognise the place value of each digit in a tens, and ones)read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)read, write, order and compare numbers to at loo 000 00 and determine the value of each digit (appears also in Reading and Writing Numbers)find the effect of dividing a one - or two-digit number by 10 and 100, <br< th=""><th></th><th>tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks (copied from Measurement) Understandir</th><th>read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.</th><th>(appears also in Comparing Numbers) read Roman numerals to 1000 (M) and recognise years written in Roman numerals.</th><th>10 000 000 and determine the value of each digit (appears also in Understanding Place Value)</th></br<>		tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks (copied from Measurement) Understandir	read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	(appears also in Comparing Numbers) read Roman numerals to 1000 (M) and recognise years written in Roman numerals.	10 000 000 and determine the value of each digit (appears also in Understanding Place Value)
Fractions)	value of each digit in a two-digit number (tens,	value of each digit in a three-digit number	value of each digit in a four-digit number (thousands, hundreds, tens, and ones) find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as units, tenths and hundredths	compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers) recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers) identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1 000 where the answers are up to three decimal places (copied from

### **Addition and Subtraction**

Number Bonds

Key S	itage 1	Key Stage 2				
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
represent and use number bonds and	recall and use addition and subtraction facts to					
related subtraction facts within 20	20 fluently, and derive and use related facts up to 100					
		<u>Mental cale</u>	culation			
add and subtract one- digit and two-digit numbers to 20, including zero	<ul> <li>add and subtract</li> <li>numbers using</li> <li>concrete objects,</li> <li>pictorial</li> <li>representations, and</li> <li>mentally, including:</li> <li>a two-digit number</li> <li>and ones</li> <li>a two-digit number</li> <li>and tens</li> <li>two two-digit</li> <li>numbers</li> <li>adding three one-digit</li> <li>numbers</li> </ul>	add and subtract numbers mentally, including: * a three-digit number and ones * a three-digit number and tens * a three-digit number and hundreds		add and subtract numbers mentally with increasingly large numbers	perform mental calculations, including with mixed operations and large numbers	

read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods)	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot				use their knowledge of the order of operations to carry out calculations involving the four operations
		Written	<u>Methods</u>		
read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Mental Calculation)		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)	Develop/hone formal written methods for calculation (all operations)
	<u> </u>	nverse Operations, Estima	ting and Checking Answei	<u>'S</u>	
	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	estimate the answer to a calculation and use inverse operations to check answers	estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.
	•	Problem	Solving		

solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \Box - 9$	solve problems with addition and subtraction: * using concrete objects and pictorial representations, including those involving numbers, quantities and measures applying their increasing knowledge of mental and written methods solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction	solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why Solve problems involving addition, subtraction, multiplication and division
--	---	---	--	--	---

## **Multiplication and Division**

#### Multiplication and Division Facts

Key S	tage 1	Key Stage 2				
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
<i>count in multiples of twos, fives and tens</i> (copied from Number and Place Value)	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value)	<i>count from 0 in multiples of 4, 8, 50 and 100</i> (copied from Number and Place Value)	<i>count in multiples of 6, 7, 9, 25 and 1 000</i> (copied from Number and Place Value)	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and Place Value)		
	recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables	recall multiplication and division facts for multiplication tables up to 12 × 12			
		Mental Ca	alculations			
		write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one- digit numbers, using	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers	

show that multiplication of two numbers can be done in any order	mental and progressing to formal written methods (appears also in Written Methods)	recognise and use factor pairs and commutativity in mental calculations	multiply and divide whole numbers and those involving decimals by 10, 100	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g.
(commutative) and division of one number by another cannot		(appears also in Properties of Numbers)	and 1000	<sup>3</sup> / <sub>8</sub> ) (copied from Fractions)
	Written Ca	alculations	L	
calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one- digit numbers, using mental and progressing to formal written methods (appears also in Mental Methods)	multiply two-digit and three-digit numbers by a one-digit number using formal written layout	multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two- digit numbers	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication
			divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders	divide numbers up to 4- digits by a two-digit whole number using the formal written method of short division where

BLSV	K MINALUN EE					
					appropriately for the context	appropriate for the context divide numbers up to 4 digits by a two-
						digit whole number using the formal
						written method of long division, and interpret
						remainders as whole number remainders,
						fractions, or by rounding, as
						appropriate for the context
						use written division methods in cases where
						the answer has up to two decimal places (copied
						from Fractions (including decimals))
		Properties of	numbers: Multiples, Facto	ors, Primes, Square and Cu	be Numbers.	
				recognise and use	identify multiples and factors, including	identify common factors, common
				factor pairs and commutativity in	finding all factor pairs	multiples and prime
				, mental calculations	of a number, and	numbers
				(repeated)	common factors of two numbers.	
					know and use the	use common factors to
					vocabulary of prime	simplify fractions; use common multiples to
					numbers, prime factors and composite (non- prime) numbers	express fractions in the same denomination

BLSW				
			establish whether a number up to 100 is prime and recall prime numbers up to 19	(copied from Fractions)
			recognise and use square numbers and cube numbers, and the notation for squared ( <sup>2</sup> ) and cubed ( <sup>3</sup> )	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm <sup>3</sup> ) and cubic metres (m <sup>3</sup> ), and extending to other units such as mm <sup>3</sup> and km <sup>3</sup> (copied from Measures)
	Order of C	Operations		· · ·
				use their knowledge of the order of operations (BIDMAS) to carry out calculations involving the four operations
	Problem	n Solving		
	estimate the answer to a calculation and use inverse operations to check answers (copied from Addition and Subtraction)	estimate and use inverse operations to check answers to a calculation (copied from Addition and Subtraction)		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy

QUAR NILSEA,

## Fractions (inc decimals and percentages)

#### **Counting in Fractional Steps**

Key	Stage 1		Key Stage 2				
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
	Pupils should count in fractions up to 10, starting from any number and using the1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths				
		Recognisir	ng Fractions	1			
recognise, find and name a half as one of two equal parts of an object, shape or quantity	recognise, find, name and write fractions $\frac{1}{3}$ , $\frac{1}{4}$ , $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non- unit fractions with small denominators recognise that tenths arise from dividing an object into 10 equal parts and in dividing	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)			
		one – digit numbers or quantities by 10.					

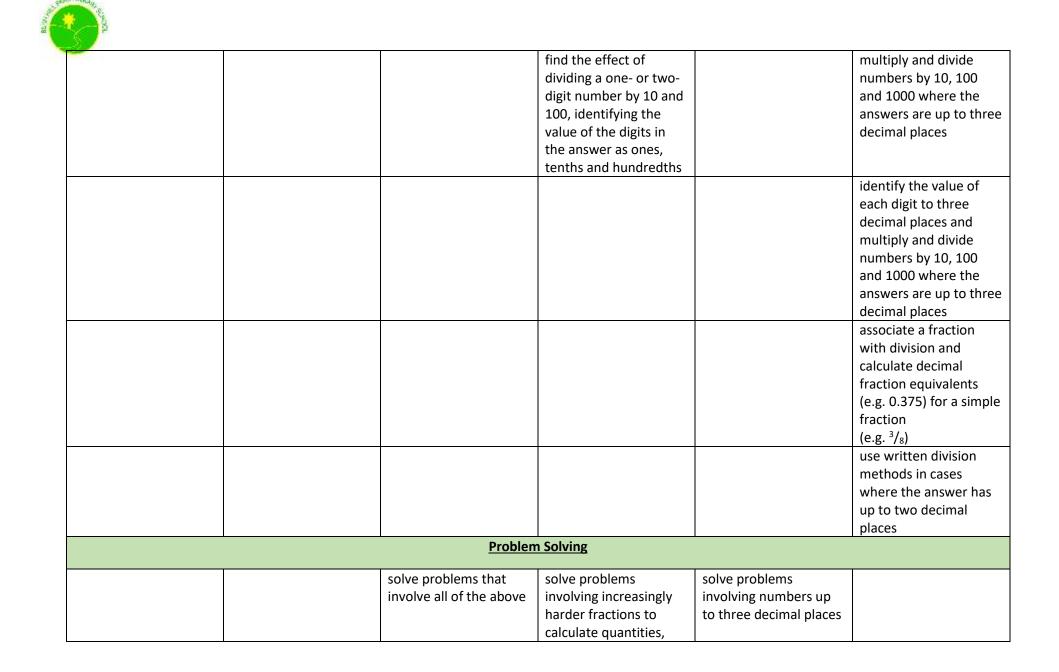

recognise, find and	recognise and use						
name a quarter as one	fractions as numbers:						
of four equal parts of	unit fractions and non-						
an object, shape or	unit fractions with						
quantity	small denominators						
	Comparii	ng Fractions					
	compare and order unit		compare and order	compare and order			
	fractions, and fractions		fractions whose	fractions, including			
	with the same		denominators are all	fractions >1			
	denominators		multiples of the same				
			number				
	Compari	ng Decimals					
		compare numbers with	read, write, order and	solve problems which			
		the same number of	compare numbers with	require answers to be			
		decimal places up to	up to three decimal	rounded to specified			
		two decimal places	places	degrees of accuracy			
	Rounding inc	luding Decimals					
		round decimals with	round decimals with	solve problems which			
		one decimal place to	two decimal places to	require answers to be			
		the nearest whole	the nearest whole	rounded to specified			
		number	number and to one	degrees of accuracy			
			decimal place	,			
Equivalence (including Fractions, Decimals and percentages)							
-	le fractions recognise and show,	recognise and show,	identify, name and	use common factors to			
e.g. <sup>1</sup> / <sub>2</sub> of 6	5 = 3 and using diagrams,	using diagrams, families	write equivalent	simplify fractions; use			
recognise t		of common equivalent	fractions of a given	common multiples to			
		fractions	fraction, represented				

equivalenc	e of <sup>2</sup> / <sub>4</sub> and with small denominators		visually, including tenths and hundredths	express fractions in the same denomination
		recognise and write decimal equivalents of any number of tenths or hundredths recognise and write decimal equivalents to ${}^{1}/{}_{4}; {}^{1}/{}_{2}; {}^{3}/{}_{4}$	read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$ ) recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. <sup>3</sup> / <sub>8</sub> ) recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.
	Addition and Sub	traction of Fractions		
	add and subtract fractions with the same denominator within	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number	add and subtract fractions with different denominators and mixed numbers, using the

	one whole (e.g. ${}^{5}/{}_{7} + {}^{1}/{}_{7}$ = ${}^{6}/{}_{7}$ )		recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $\frac{2}{5}$ + $\frac{4}{5} = \frac{6}{5} = \frac{1}{5}$ )	concept of equivalent fractions
	Multiplication and I	Division of Fractions		
			multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$ ) multiply one-digit numbers with up to two decimal places by whole numbers divide proper fractions by whole numbers (e.g. $\frac{1}{3} \div 2 = \frac{1}{6}$ )
	Multiplication and	Division of Decimals		
				multiply one-digit numbers with up to two decimal places by whole numbers

15K Ditte

and	Contraction of the second s			
		and fractions to divide		
		quantities, including		
		non-unit fractions		
		where the answer is a		
		whole number		
		solve simple measure	solve problems which	
		and money problems	require knowing	
		involving fractions and	percentage and	
		decimals to two	decimal equivalents of	
		decimal places.	$1^{1}/2^{1}, 1^{1}/4^{1}, 1^{2}/5^{2}, 1^{4}/5^{3}$ and	
			those with a	
			denominator of a	
			multiple of 10 or 25.	

## **Ratio and Proportion**

Key Stage 1		Key Stage 2			
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					solve problems involving the relative sizes of two quantitie where missing values can be found by using integer multiplication and division facts
					solve problems involving the calculation of percentages [for example, of measures and such as 15% of 36 and the use of percentages for comparison
					solve problems involving similar shap where the scale facto is known or can be found

		solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.

	<u>Algebra</u>					
Key Stage 1 Key Stage 2						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = 2 - 9 (copied from	Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems. (copied from Addition and Subtraction)	Solve problems including missing number problems, using number facts, place value, and more complex addition and subtraction. (copied from Addition and Subtraction)	Perimeter can be expressed algebraically as 2(a + b) where a and b are the dimensions in the same unit. (Copied from NSG measurement)	Use the properties of rectangles to deduce related facts and find missing lengths and angles (copied from Geometry: Properties of Shapes)	Express missing number problems algebraically	

Addition and Subtraction)	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)	solve problems, including missing number problems, involving multiplication and division, including integer scaling (copied from Multiplication and Division)		find pairs of numbers that satisfy number sentences involving two unknowns
represent and use number bonds and related subtraction facts within 20 (copied from Addition and Subtraction	compare and sequence intervals of time (copied from Measurement)			enumerate all possibilities of combinations of two variables Use simple formulae
sequence events in chronological order using language such as: before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)	order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and direction)			recognise when it is possible to use formulae for area and volume of shapes (copied from Measurement)

					generate and describ linear number sequences
		<u>Geometry – P</u>	roperties of shape	·	
Key S	tage 1		Key S	Stage 2	
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Recognise and name common 2-D and 3-D shapes, including: * 2- D shapes e.g. rectangles (including squares), circles and triangles * 3-D shapes e.g. cuboids (including cubes), pyramids and spheres.	Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line				Recognise, describe and build simple 3-D shapes, including making nets (appea also in Drawing and Constructing)
	Identify and describe the properties of 3-D shapes, including the number of edges, vertices and face	Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	Identify lines of symmetry in 2-D shapes presented in different orientations	Identify 3D shapes including cubes and other cuboids, from 2-D representations	Illustrate and name parts of circles, including radius, diameter and circumference and

ASIN DIRE

				know that the diameter is twice the radius
Identify 2 -D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]			Draw given angles, and measure them in degrees ( o )	Draw 2-D shapes using given dimensions and angle
Compare and sort common 2-D and 3-D shapes and everyday objects	Recognise angles as a property of shape or a description of a tur	Complete a simple symmetric figure with respect to a specific line of symmetry	Use the properties of rectangles to deduce related facts and find missing lengths and angles	Recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties
	Identify right angles, recognise that two right angles make a halfturn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	Distinguish between regular and irregular polygons based on reasoning about equal sides and angles	Compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons
	Identify horizontal and vertical lines and pairs of perpendicular and parallel line	Identify acute and obtuse angles and compare and order angles up to two right angles by size	Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angle	Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles

				Identify: * angles at a point and one whole turn (total 360 o ) * angles at a point on a straight line and ½ a turn (total 180 o ) * other multiples of 90 o		
	Geo	ometry- Position,	, Direction and Movemer	<u>nt</u>		
Key st	age 1		Key Stage 2			
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
				Internation also and		
•	Use mathematical		Describe positions on a	Identify, describe and	-

					versa, using decimal
					notation to up to three
					decimal places
December and wee	Tell and united the times		Convert hotoreau		a a hua ya wa kila wa a
Recognise and use	Tell and write the time	estimate and read time	Convert between	convert between	solve problems
language relating to	to five minutes,	with increasing	different units of	different units of metric	involving the
dates, including days of	including quarter	accuracy to the nearest	measure (e.g. kilometre	measure (e.g. kilometre	calculation and
the week, weeks,	past/to the hour and	minute; record and	to metre: Hour to	and metre; centimetre	conversion of units of
months and years	draw the hands on a	compare time in terms	minute)	and metre; centimetre	measure, using decimal
	clock face to show	of seconds, minutes,		and millimetre; gram	notation up to three
	these times.	hours and o'clock; use		and kilogram; litre and	decimal places where
		vocabulary such as		millilitre)	appropriate (appears
		a.m./p.m., morning,			also in Measuring and
		afternoon, noon and			Calculating)
		midnight (appears also			
		in Comparing and			
		Estimating)			

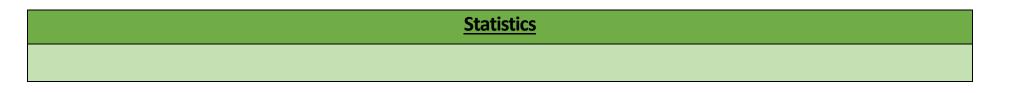

2					
	know the number of minutes in an hour and the number of hours in a day. (appears also in Converting know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time	Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24- hour clocks Know the number of seconds in a minute and the number of days in each month, year and leap year	read, write and convert time between analogue and digital 12 and 24- hour clocks (appears also in Converting) solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks	solve problems involving converting between units of time understand and use equivalences between metric units and common imperial units such as inches, pounds	Convert between miles and kilometres Recognise when it is possible to use formulae for area and volume of shapes
Recognise and know the value of different denominations of coins and notes	Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value	Add and subtract amounts of money to give change, using both £ and p in practical contexts	to days (appears also in Telling the Time)	and pints	calculate the area of parallelograms and triangles
	find different combinations of coins that equal the same amounts of money		find the area of rectilinear shapes by counting squares	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm 2) and square metres (m 2) and estimate the area of irregular shapes recognise and use square numbers and cube numbers, and the notation for squared (2)	

				) and cubed ( 3 ) (copied from Multiplication and Division)	
	solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change				calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm 3) and cubic metres (m 3), and extending to other units [e.g. mm]
Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times.	Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24- hour clocks	Read, write and convert time between analogue and digital 12 and 24- hour clocks (appears also in Converting)	solve problems involving converting between units of time	
Recognise and use language relating to dates, including days of the week, weeks, months and years	know the number of minutes in an hour and the number of hours in a day. (appears also in Converting	estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and	solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Converting)		Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal

	midnight (appears also			notation to up to three
	in Comparing and			decimal places
	Estimating)			· · · · · · · · · · · · · · · · · · ·
know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	Know the number of seconds in a minute and the number of days in each month, year and leap year	Convert between different units of measure (e.g. kilometre to metre; hour to minute)	Convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)
		read, write and convert time between analogue and digital 12 and 24- hour clocks (appears also in Converting)	solve problems involving converting between units of time	Convert between miles and kilometres
		solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time)	Understand and use equivalences between metric units and common imperial units such as inches, pounds and pints	

Кеу	Stage 1	Key Stage 2					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
	interpret and construct simple pictograms, tally charts, block diagrams and simple tables	Interpret and present data using bar charts, pictograms and table	interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graph	Complete read and interpret information in tables, including timetables	Interpret and construct pie charts and line graphs and use these to solve problems		
	ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity	solve one-step and twostep questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables	Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs	solve comparison, sum and difference problems using information presented in a line graph	calculate and interpret the mean as an average		
	ask and answer questions about totalling and comparing categorical data
